I'm done, except for the maps that we're supposedly going to get from HQ. I'll be doing Michigan on Monday.

Subject Update SO2 emissions data

Updated County and Source Emissions by State for SO2.xlsx

There are two tables in each State. One for county emissions and one for source emissions. Second table starts at the bottom of the first table.

Subject R5's Shape Files

Hello,

I hope all is well. I'm following up with you regarding our last WG call discussion on shape files. Does your region have or will be able to provide shape files on your NAAs? As we mentioned on the call, if you are not able to provide these files, there is no worries. We (OAQPS) will work things out on our end.

For clarification, you have 14 NAAs. These area names are (and please let me know if these names are incorrect):

1. Pekin
2. Lemont (Chicago)
3. Indianapolis
4. Louisville
5. Morgan County
6. Richmond
7. South West Indiana
8. Terre Haute
9. Detroit
10. Jefferson
11. Morgan
12. Rhinelander
13. Lakes
14. Meigs

You have a total of 8 partial counties and 10 whole counties.

Thank you,

Rhonda Wright

Assistant Administrator McCarthy:

Attached please find a letter from the American Lung Association, Environmental Defense Fund, and the Natural Resources Defense Council respectfully requesting that EPA move forward expeditiously with nonattainment designations for the revised sulfur dioxide national ambient air quality standards .

Best wishes,

Peter Zalzal

Subject FYI- SO2 Designations

Hi Everyone,

This is a list of the areas that we are proposing as nonattainment in the 120-day letters. The asterisks in the table are where we have disagreed with the states and have added additional townships or counties .
